

List settings

The *List settings* section allows you to customize the parameters and options related to the list you are working on.

You can always see at a glance the list you are in, by looking at the drop-down menu far to the left of the screen

Among the settings you can modify here:

- Email and text messages sender
- Subscription and unsubscription options
- Automated messages
- Subscription forms
- RSS feeds settings
- Social channel settings

..and many more!
